

REMARKS

This Preliminary Amendment has added new claims 33-37. Upon entry of these amendments, claims 1-37 will be pending in the present application. Consideration of the application as amended is respectfully requested.

Attachments

Attached hereto is a marked-up version of the changes made to the specification and claims by the current amendment. The attached page is captioned "VERSION WITH MARKINGS TO SHOW CHANGES MADE."

Conclusions

The Commissioner is authorized to charge the requisite fee of \$342.00 for the new claims added, and any additional fees which may be required, to the credit card listed on the attached PTO-2038. However, if the PTO-2038 is missing, if the amount listed thereon is insufficient, or if the amount is unable to be charged to the credit card for any other reason, the Commissioner is authorized to charge Deposit Account No. 06-1315; Order No. ITWO:0009/YOD for the new claims added.

Respectfully submitted,

Date: April 10, 2002

VERSION WITH MARKINGS TO SHOW CHANGES MADE

Prior to examination of the above-referenced application, please amend the application as follows:

IN THE CLAIMS

Please add the following new claims:

33. (New) A welding gun for an arc welding system, comprising:

a first handle piece;

a second handle piece;

a trigger to control operation of a welding system, the first and second handle pieces being adapted to receive the trigger; and

a neck operable to direct a flow of gas therethrough, the first and second handle pieces being positionable relative to the neck to enable the position of the trigger on the welding handle, relative to the neck, to be varied from a first position to a second position, the second position being directly opposite the first position.

wherein the first and second handlepieces are adapted to be gripped by a hand oriented in a constant orientation relative to the neck with the trigger in both the first and second positions.

34. The welding gun as recited in claim 33, wherein the second position is vertical relative to the first position.

35. (New) A welding handle for an arc welding system,
a handle portion securable to a welding cable; and
a trigger secured to the handle portion,
wherein the handle portion is adapted to be gripped by a user in a first orientation to
enable the user to operate the trigger with a finger and to be gripped by a user in a second
orientation to enable the user to operate the trigger with one of a thumb and the palm of a
hand.

36. (New) A welding gun, comprising:
a handle portion securable to a welding cable, the handle portion being adapted to
direct the welding cable linearly along an axis through the handle portion; and
a trigger switch secured to the handle portion,
wherein the handle portion is adapted to be gripped by a hand in a first orientation
and a second orientation relative to the hand, the handle portion being rotated 180 degrees
about the axis from the first to the second orientation.

37. (New) The welding handle as recited in claim 35, wherein the handle
portion is adapted to be gripped with the trigger oriented both toward a palm of the hand
and away from the palm of the hand.
